Hi I'm just calling to access my objection to this resolution coming up to date city council presented by the mass against HP I feel this is a misguided in trouble in particular because I don't think we use a so you should be involved in on the floor covering contentious international issues and also I feel the group is basically had to semantic which is included in even more troubling so I hope to you'll take a stand against this resolution.

Hi thank you very much appreciate your thoughts.

Hold up bye bye.
